

# UNFILTERED

## Equipping Parents for an Ongoing Conversation about Internet Pornography

*"The vocation of being a protector... means caring for one another in our families: husbands and wives first protect one another, and then, as parents, they care for their children, and children themselves, in time, protect their parents. It means building sincere friendships in which we protect one another in trust, respect, and goodness. In the end, everything has been entrusted to our protection, and all of us are responsible for it. Be protectors of God's gifts!"*

- Pope Francis inaugural homily.

Our mission is to equip people with tools to form positive habits and avoid pornography online. We want to create healthy families and a culture of accountability.
