

A "YES" vote on AUGUST 2ND is a Pro-Life vote!

VALUE THEM BOTH

UNLIMITED ABORTION HURTS WOMEN AND BABIES

VALUE THEM BOTH LETS KANSANS REGULATE THE ABORTION INDUSTRY

The Basics:

- **Why Do We Need the Value Them Both Amendment?** A court removed the voice of Kansans to limit and regulate the abortion industry through our elected officials, allowing it to do business with virtually no limits.
- **What will happen when Kansans Pass Value Them Both?** 20+ bipartisan-supported pro-life laws that were passed to protect women and babies from the abortion industry will stay in place. It doesn't ban all abortions.
- **What Would Happen if Kansans Do Not Pass Value Them Both?** Extreme abortions up to the moment of birth and funded by your tax dollars will likely become legal and common.

Critical Pro-life Laws We Need to Protect:

- **Ban on Taxpayer Funding of Abortion** - Keeps state tax dollars from directly funding abortions.
- **Parental Consent Requirement** - We can all agree a 14-year-old should not be dropped off at an abortion clinic without her parents knowing.
- **A "Woman's Right to Know" Informed Consent and Sonogram Laws** Every woman has the right to know the risks of abortion and accurate information about her baby's development.
- **Post 20-Week and Late-term Abortion Laws** - Kansans don't want to see their state become a destination for extreme abortions.

Pro-life Laws Already Struck Down Due to Supreme Court Ruling:

- **Live Dismemberment Abortion Ban** - (originally passed in 2015; with Republican and Democrat support by 31-9 in the Senate & 98-26 in the House) Law was sued by abortion providers Hodes & Nausser.
- **Abortion Clinic Licensure Law.** (originally passed in 2011 with Republican and Democrat support by 24-15 in the Senate & 97-26 in the House) - a Shawnee County District Court judge struck down this law citing the Hodes & Nausser case.
