In 2019, an activist state court radically changed the Kansas Constitution, making it nearly impossible to regulate abortion in even the simplest of ways. This ruling cleared the path for unlimited and unregulated abortion right up to the moment of birth in our state.

The Value Them Both Amendment will reverse this ruling and restore our Constitution.

Value Them Both will protect these common-sense and well-supported laws such as our ban on tax-payer funded and painful late-term abortions.

Value Them Both will safeguard The Kansas Woman's Right To Know Law. This law says that all abortion facilities must provide a woman with information about the abortion procedure, the immediate and long-term risks of abortion, and the development of her child so that she can make an informed decision. Women deserve this information.

Value Them Both values women.
