

2026-2027 KANSAS CITY TEAM

ANAMARIA PAULUS is from Miami, FL where she worked as a nanny for 3 years after High School. She loved being a nanny but has since felt God calling her to serve Him as a missionary. Anamaria first heard about The Culture Project when she attended a talk given by missionaries at her young adult group. She was drawn to the mission because of the ability to share the truth with young people about their identity and purpose, rooted in the Theology of the Body. The opportunity to live in community with other young Catholics also drew Anamaria to The Culture Project. "Sharing this truth with young people is an important mission and I am so blessed to be a part of it."

BAYLEIGH DONAHOE is a 2025 graduate from the University of Nebraska Omaha with a BS in Communication Studies. She grew up in Eastern Nebraska and loved watching the sunset at her parent's lakeside home. Bayleigh met The Culture Project through a friend who had attended a presentation and invited Bayleigh to check out the mission. The message of restoring the culture and finding freedom from a counterfeit version of love opened her heart to a life of virtue for herself and all of God's children. Through a beautiful discernment process, Bayleigh answered the call from Christ to give a year of her life to serve others as a Culture Project missionary. "This truth of being made by love, for love, to love has set me free from the addictions the culture has fed me. I became a CP missionary to spread this good news to young men and women before the culture gets too much of them."

BELLA NEIMAN is a 2026 graduate of Ave Maria University with a BA in Psychology. She grew up in Michigan before moving to Florida for college. She was first introduced to The Culture Project through their social media content about human dignity and fell in love with the mission further after hearing the witness of some of their staff. In her time at Ave Maria she grew in a desire for a truly personal relationship with Christ. Bella has now felt Him drawing her closer to Him through the community and service of the Culture Project mission. "I am blessed to be able to share the message of hope and healing that is found in realizing and living out what we are created for. I love how this mission strives to especially help young people know they are personally loved and valued."

CARTER SCHULTZ is a 2026 graduate of Benedictine College with a BA in Business Management and a minor in Theology. He grew up in San Marcos, California and played football and baseball in high school and football in college. Carter met The Culture Project through friends at Benedictine who were going to be missionaries after graduation. They inspired Carter to use his talents and gifts to lead young people to Jesus. The message of beauty, dignity, and hope has impacted his life in a massive way and presenting this to others inspired him. A few months later, Carter answered the call to give Jesus Christ a year of his life to serve others as a Culture Project missionary. "My heart breaks for young people who don't know the beauty of truth and the person of Jesus Christ. I want to be a missionary so I can tell all the people whom I encounter about this great news."

KYLE WOZNIACK is an Omaha, Nebraska native who has spent the last 6 years in seminary formation. He earned his undergraduate in 2024 with a B.A. in Philosophy and Catholic Studies from the University of St. Thomas in St. Paul, Minnesota. Kyle came into contact with The Culture Project at SEEK Conferences and was encouraged by a friend and CP missionary to pray about going on mission after he discerned out of the seminary. The Lord answered that prayer powerfully and swiftly. Kyle has loved the teachings of the Church since his youth and has found The Culture Project's mission to be a beautiful and inspiring witness to the love Jesus wants to pour into our world. "Jesus has loved and blessed me abundantly, and He has called me to the adventure of mission to make a saint of me and all those He will love through me."

It helped me understand the dangers of porn, and how it is harmful to all of us by giving humans no dignity, and also we are all special because we were born, which gives us a purpose.

Student at St. Pius X School, Kansas City, MO, Human Dignity Presentation
